

## division one is a TOP CONSULTANT

Stuttgart – division one ranks among the best recruitment consultancy firms in Germany and was therefore awarded the seal „TOP CONSULTANT 2016.“ For the seventh time, this seal honors consultancy services of exceptional quality. Christian Wulff, former Federal President of Germany, congratulated the company representatives in his role as ‘Mentor des Beratervergleichs’ (mentor of consultant comparing) at the 3. Deutschen Mittelstands-Summit (3<sup>rd</sup> German Summit of Medium-Sized Businesses) in Essen.

Björn Knothe, CEO of division one, said about the award: “We are very proud of being certified such a high level of professionalism during mandate implementation directly by our customer. The result of the survey clearly shows that satisfied customers expect more than the common standards!” According to Beratervergleich TOP CONSULTANT, division one belongs to the consulting firms that communicate best with medium-sized businesses. The seal serves medium-sized companies as a safe means of orientation in an otherwise opaque market. A scientifically sound customer survey which was carried out by Prof. Dr. Dietmar Fink of the Bonn-Rhein-Sieg University and by Bianka Knoblach, forms the basis of the award. Both head the Wissenschaftliche Gesellschaft für Management und Beratung (WGMB; Scientific Society for Management and Consulting) and have now conducted TOP CONSULTANT for the seventh time.

„Medium-sized companies expect their consultants to communicate with them at an equal level and to find individual solutions to their specific challenges,” says Prof. Dr. Dietmar Fink. “The TOP CONSULTANTS show very impressively, that they meet their customers’ expectations as they are capable of taking a broader view in order to identify what is truly needed. The TOP CONSULTANT seal offers customers a trustworthy means of orientation in the non-transparent consultancy jungle.”
